ADEM DERBALI

Final-Year Licence Student – Software Engineering | Full-Stack Developer (React · NestJS · Spring Boot · PostgreSQL)
Mahdia, Tunisia | +216 26 668 160 | adamderbali16@gmail.com | LinkedIn | GitHub

PROFILE

Final-year Licence student in Computer Science at the Institut Supérieur d'Informatique de Mahdia (ISIMA), specializing in Software Engineering and Information Systems. I have built web and mobile projects with React, React Native, NestJS, and Spring Boot, using PostgreSQL as the database. I am looking for a PFE internship in Full-Stack Development or Software Engineering.

EDUCATION

Licence en Informatique – Génie Logiciel et Systèmes d'Information *2026*
Institut Supérieur d'Informatique de Mahdia (ISIMA), Mahdia, Tunisia

- Academic focus on software development, programming, databases, information systems, and software engineering.

TECHNICAL SKILLS

Core Stack: TypeScript, React.js, NestJS, Spring Boot, PostgreSQL, Prisma
Mobile: React Native, Expo, Expo Router
Programming Languages: Java, JavaScript, TypeScript, Python, C, PHP, HTML5, CSS3
Frontend: React.js, Vite, Tailwind CSS, React Router
Backend: Spring Boot, NestJS, Node.js, Express.js, REST APIs
Databases and ORM: PostgreSQL, Prisma, Spring Data JPA
Tools: Git, GitHub, Postman, pgAdmin, VS Code, ESLint
Currently Learning: Docker, JWT Authentication

PROJECTS

ClinicHub – Clinic Management System *React, Vite, Tailwind CSS, NestJS, TypeScript, Prisma, PostgreSQL*

- Developed a full-stack clinic management platform for patient, doctor, appointment, and user management using React.js, Vite, Tailwind CSS, and React Router.
- Designed RESTful APIs with NestJS and TypeScript, implemented relational data models using PostgreSQL and Prisma ORM, and integrated frontend-backend communication with Axios. Tested endpoints using Postman and managed database operations with pgAdmin.

CVScore – CV Analysis Platform *React, Java, Spring Boot, Spring Data JPA, PostgreSQL, PDFBox*

- Built a full-stack CV analysis platform that evaluates candidate profiles against job requirements using TF-IDF and Cosine Similarity for document matching.
- Implemented PDF text extraction and preprocessing with Apache PDFBox. Developed REST APIs using Java, Spring Boot, and Spring Data JPA, with PostgreSQL for data persistence and React.js for the user interface.

Smart Nutrition Mobile Application *React Native, Expo, Expo Router, TypeScript*

- Developed a cross-platform nutrition application using React Native and Expo, featuring food search, nutritional information, portion selection, and meal tracking.
- Integrated the USDA FoodData Central API with a local food catalog and implemented daily calorie and macronutrient summaries. Used Expo Router for navigation and reusable components for a consistent mobile experience.

Personal Developer Portfolio *React, JavaScript, CSS, Motion*

- Designed and developed a responsive portfolio using React.js, JavaScript, and CSS to showcase projects, technical skills, academic background, and professional information.
- Implemented scroll-driven animations and interactive transitions using Motion, with responsive layouts for desktop and mobile devices.
